HABIT FORMATION

Atomic Habits

An Easy & Proven Way to Build Good Habits & Break Bad Ones

James Clear · 2018

James Clear shows how tiny improvements compound into remarkable results, and gives a practical system for designing the cues, cravings and rewards behind every habit you want to build or break.[1,2,9]

WHY READ IT

- A clear, memorable system you can apply to any habit[2]
- Stories from athletes, artists and scientists that make the ideas stick[1]
- Practical tools like habit stacking and the Two-Minute Rule[6,8]

THE BIG IDEA

Systems beat goals

Clear argues that goals set the direction but systems make the progress: you fall to the level of your systems. Getting about 1% better each day compounds, even when results stay invisible for a long time. He calls that stretch the Plateau of Latent Potential.[1,2,3]

THREE LESSONS

1 **Every action is a vote**

Habits shape identity. Decide who you want to become, then prove it to yourself with small wins. Change works best from identity outward.[4]

2 **Environment beats willpower**

Make the cues for good habits obvious and hide the cues for bad ones. The easiest habit is the one already set up for you.[2]

3 **Never miss twice**

Missing once is an accident. Missing twice is the start of a new pattern, so get straight back on track.[10]

THE FRAMEWORK

The Four Laws of Behavior Change[2]

Every habit runs through a loop: cue, craving, response, reward. Each law shapes one stage. To break a habit, invert the law.[2]

1 Make it obvious

Cue · invert: make it invisible

A habit starts with a cue you notice. Decide exactly when and where you'll act.[2,6]

Try: I will [behavior] at [time] in [location].[6]

2 Make it attractive

Craving · invert: unattractive

The more appealing a habit, the more likely you'll do it.[2]

Try: Temptation bundling: pair a need with a want.[7]

3 Make it easy

Response · invert: make it difficult

Reduce friction for good habits and add it to bad ones.[2]

Try: Two-Minute Rule: start with a version under two minutes.[8]

4 Make it satisfying

Reward · invert: unsatisfying

We repeat what feels good straight away.[2]

Try: Track it so progress is visible.[10]

FROM THE BOOK

Tools to try

The Habits Scorecard

Clear's exercise for noticing what you already do.[5]

1. List everything you do from the moment you wake up.
2. Mark each habit +, – or = for the person you want to be.
3. Don't change anything yet. Just notice.

Habit stacking

Clear's formula for linking a new habit to an old one.[6]

1. List habits you already do every day without fail.
2. Pick one that happens at the right time and place.
3. Write it: After [current habit], I will [new habit].
4. Make the cue precise, like “when I close my laptop at lunch”.

MAKE IT YOURS

Try it this week

1. Do the Habits Scorecard for one ordinary day.
2. Pick one new habit and shrink it to two minutes.
3. Stack it onto an existing habit.
4. Track it every day, and never miss twice.

REFLECT

Which of your current habits are votes for the person you want to become?

What does your current system reliably produce?

Try it in Sedi: Add the stacked habit as a daily Routine in Timely and tick it off to keep your streak visible.

This guide only scratches the surface. The book has the research, the stories and the nuance behind every idea here. Buy it from an independent bookshop, borrow it from your library, or listen to the audiobook.

A NOTE FROM ME

I'm not affiliated with James Clear or the publisher, and this guide isn't sponsored or endorsed by them. I've learned a lot from this book, so I'm sharing what I took from it, for free, in case it helps you too. Everything here is my own summary, in my own words. The good ideas are the author's; any mistakes are mine.
